

Ayukii,

My name is Arron Hockaday Sr. and I am running for Karuk Tribal Council for the Happy Camp area.

I have lived in the Karuk ancestral territory all of my life. I live with my wife Hermanett Albers and daughter Lila Hockaday in Happy Camp, our four other children live in Yreka. I enjoy camping, fishing both traditional and non-traditional, hunting as well as spending time with friends and family.

I am running for Tribal Council to be a voice for our tribal members. I will do my very best to keep all members informed and up to date with all that is happening within our tribe as well as having our members voices heard. I believe it is important to keep the lines of communications open at all times.

As a Tribal Council Member, I would like to see the Karuk Housing Board Members voted in by our Karuk Tribal members, I also would like to see, hear and have more participations from our Tribal members in helping with culture and whatever else is needed. Our Tribal Ceremonies and Traditions are very important and we need to educate our youth so our past can be a guide toward a great future for our Karuk People. I would like to encourage all Tribal members to participate, teach and get involved in our traditional ways so that we can go forward to make our lives, our children's lives and our grandchildren's lives better. And I believe teaching the ways of our people is going to do just that. As a Tribal Council Member, I believe it is very important that all members know where we came from before we can make good decisions on where we want our future to head.

I believe if we start working toward bring back our ways, we can bring back resources to our forests, Salmon if the dams go down or not, we did it in the '80's and we can do it again. So, I am hoping that if I am voted in as a council member, we can together find a way to help all Tribal members who live in or out of our ancestral territories, and bring houses and jobs back to the Tribal lands so that they can move back Home.

If we work together, we can make these things happen.

So please vote for me in November

Thank you

Arron T. Hockaday Sr.
