As soon as the bid prices have been compared, the Owner will return the bonds of all except the three lowest responsible bidders. When the Agreement is executed, the bonds of the two remaining unsuccessful bidders will be returned. The bid bond of the successful bidder will be retained until the Payment and Performance bonds have been executed and approved, after which it will be returned.

Performance and Payment bonds, each totaling 100% of the Contract price, with a corporate surety approved by the Owner, shall be provided to the Owner when the Agreement is executed.

Attorneys-in-fact who sign Bid, Payment, and Performance bonds must file with each bond a certified and effective dated copy of their power of attorney.

NOTICE OF AWARD

The Owner may make such investigations, as they deem necessary to determine the ability of the bidder to perform the work. Bidders shall be prepared to furnish such information and data for this purpose at the Owner's request. The Owner reserves the right to reject any bid if the evidence submitted by, or investigation of, such bidder fails to satisfy the Owner that such bidder is properly qualified to carry out the obligations of the Agreement and to complete the work contemplated therein.

The successful bidder will be required to execute an Agreement and obtain the Performance and Payment bond, if required, within ten calendar days from the date when the Notice of Award is delivered to the bidder. In case of failure of the bidder to execute the Agreement, the Owner may at their option consider the bidder in default, in which case any bid bond accompanying the proposal shall become the property of the Owner.

The Owner, within ten days of receipt of the Agreement and any required Performance and Payment bonds signed by the party to whom the Agreement was awarded, shall sign the Agreement and return to such party an executed duplicate of the Agreement. Should the Owner not execute the Agreement within such period, the bidder may by written notice withdraw his signed Agreement. Such notice of withdrawal shall be effective upon receipt of the notice by the Owner.

Such bonds shall be executed by the Contractor and a corporate bonding company licensed to transact such business in the state in which the work is to be performed. The expense of these bonds shall be borne by the Contractor. If at any time a surety on any such bond is declared as bankrupt or loses its right to do business in the state in which the work is to be performed, the Contractor shall within ten days after notice from the Contract Manager to do so, substitute an acceptable bond (or bonds) in such form and sum and signed by such other surety or sureties as may be satisfactory to the Contract Manager. The premiums on such bond shall be paid by the Contractor. No further payments shall be deemed due nor shall be made until the new surety or sureties shall have furnished an acceptable bond to the Contract Manager.

19. ACCIDENT PREVENTION AND SAFETY PROGRAM

- 19.1 The Contractor shall be solely and completely responsible for conditions of the job site, including safety of all persons, including employees, and property during performance of the work. This requirement shall apply continuously and not be limited to normal working hours. Safety provisions shall conform to U.S. Department of Labor (OSHA), and all other applicable federal, state, county, and local laws, ordinances, codes, the requirements set forth below, and any regulations that may be detailed in other parts of these documents. Where any of these are in conflict, the more stringent requirement shall be followed. The Contractor's failure to thoroughly familiarize himself with the aforementioned safety provisions shall not relieve him from compliance with the obligations and penalties set forth herein.
- 19.2 The Contract Manager will notify the Contractor of any observed non-compliance with the foregoing provisions and the action to be taken. The Contractor shall, upon receipt of such notice, immediately take corrective action. If the Contractor fails or refuses to comply promptly, the Contract Manager may issue an

order stopping all or part of the work until satisfactory corrective action has been taken. No part of the time lost due to any such stop orders shall be made the subject of claims for extension of time, or for excess costs or damages by the Contractor.

- 19.5 If death or serious injuries or serious damages are caused, the accident shall be reported immediately by telephone or messenger to the Contract Manager. In addition, the Contractor must promptly report in writing to appropriate authorities and the Contract Manager's representative all accidents whatsoever arising out of, or in connection with, the performance of the work whether on, or adjacent to, the site, giving full details and statements of witnesses. If a claim is made by anyone against the Contractor or any subcontractor on account of any accident, the Contractor shall promptly report the facts in writing to the Contract Manager giving full details of the claim.
- 19.6 The Contractor shall provide, erect, and maintain all necessary barricades, suitable and sufficient lights, danger signals, signs and other traffic control devices, and shall take all necessary precautions for the protection of the work and safety of the public. Highways closed to traffic shall be protected by effective barricades, and obstructions shall be illuminated during the hours of darkness. Suitable warning signs shall be provided to control and direct traffic properly. The Contractor shall erect warning signs in advance of any place on the project where operations may interfere with the use of the road by traffic, and at all intermediate points where the new work crosses or coincides with an existing road.
- 19.7 Compliance with the requirements of this provision by subcontractors will be the responsibility of the Contractor.

20. TEMPORARY SANITARY FACILITIES

- 20.1 The Contractor shall provide and maintain necessary sanitary conveniences for the use of those employed on or about the work properly secluded from public observation in such a manner and at such points as shall be approved by the Contract Manager and their use shall be strictly enforced.

21. SUPERVISION BY CONTRACTOR

- 21.1 The Contractor will supervise and direct the work. He will be solely responsible for the means, methods, techniques, sequences and procedures of construction. The Contractor will employ and maintain on the work a qualified supervisor or superintendent who shall have been designated in writing by the Contractor as the Contractor's representative at the site. The supervisor shall have full authority to act on behalf of the Contractor and all communications given to the supervisor shall be as binding as if given to the Contractor. The supervisor shall be present on the site at all times as required to perform adequate supervision and coordination of the work.

22. SUBCONTRACTING

- 22.1 The Contractor may utilize the services of specialty subcontractors on those parts of the work which, under normal contracting practices, are performed by specialty subcontractors.
- 22.2 The Contractor shall not award work to subcontractor(s) in excess of 67% of the contract price, without prior written approval of the Contract Manager.
- 22.3 The Contractor shall be fully responsible to the Owner for the acts and omissions of his subcontractors, and of persons either directly or indirectly employed by them, as he is for the acts and omissions of persons directly employed by him.
- 22.4 The Contractor shall cause appropriate provisions to be inserted in all subcontracts relative to the work to bind subcontractors to the Contractor by the terms of the contract document insofar as applicable to the work

of subcontractors and to give the Contractor the same power as regards terminating any subcontract that the Contract Manager may exercise over the Contractor under any provision of the contract documents.

- 22.5 Nothing contained in this contract shall create any contractual relation between any subcontractor and the Owner.

23. SEPARATE CONTRACTS

- 23.1 The Owner reserves the right to let other contracts in connection with this project. The Contractor shall afford other Contractors reasonable opportunity for the introduction and storage of their materials and the execution of their work, and shall properly connect and coordinate his work with theirs. If the proper execution or results of any part of the Contractor's work depends upon the work of any other Contractor, the Contractor shall inspect and promptly report to the Contract Manager any defects in such work that render it unsuitable for such proper execution and results.
- 23.2 The Owner may perform additional work related to the project by him, or he may let other contracts containing provisions similar to these. The Contractor will afford the other Contractors who are parties to such contracts (or the Owner, if he is performing the additional work himself), reasonable opportunity for the introduction and storage of materials and equipment and the execution of work, and shall properly connect and coordinate his work with theirs.
- 23.3 If the performance of additional work by other Contractors or the Owner is not noted in the contract documents prior to the execution of the contract, written notice thereof shall be given to the Contractor prior to starting any such additional work. If the Contractor believes that the performance of such additional work by the Owner or others involves him in additional expense or entitles him to an extension of the contract time, he may make a claim therefore as provided in Sections 31 and 32.

24. DAYS OF WORK, HOURS OF WORK

- 24.1 Regular work shifts shall be eight hours daily Monday through Friday, except on holidays indicated below. Time of beginning and ending the day's work shall be approved by the Contract Manager. The Contract Manager, when in his opinion it is justified, may grant the Contractor permission to work overtime upon written request by the Contractor. When for good reason short periods of overtime work are required, the Contract Manager may give approval without advance written notice.
- 24.2 Construction work will not be permitted on Saturdays, Sundays, nor on New Years Day, Martin Luther King Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day and Christmas Day, nor any other holidays declared by the Tribe or federal government. When any of the above holidays falls on Saturday and the preceding Friday is established as a holiday or when any of the holidays fall on Sunday and the following Monday is established as a holiday, no construction will be permitted on those days. The Contract Manager, when in his opinion it is justified, may grant the Contractor permission to work on any of the above days upon written application by the Contractor. Approval shall be required at least 48 hours in advance.

25. TIME FOR COMPLETION AND LIQUIDATED DAMAGES

- 25.1 The time for completion of the work is an essential condition of the contract documents. The time for completion appears in the Agreement. The work embraced shall be commenced on a date specified in the notice to proceed.
- 25.2 The Contractor will proceed with the work at such rate of progress to insure full completion within the time for completion. It is expressly understood and agreed, by and between the Contractor and the Owner, that time for completion of the work under the contract is a reasonable time, taking into consideration the average climatic and economic conditions and other factors prevailing in the locality of the work.
- 25.3 It is recognized and agreed by the Owner and the Contractor that it is extremely difficult to measure the harm to the Owner resulting from delayed completion of the work. Potential damages include costs for: the temporary relocation of and alternate housing for residents of the work, similar difficulties in calculating damages. Accordingly, the Owner and the Contractor agree that the Contractor shall have assessed against it and shall pay to the Owner liquidated damages as follows. If the Contractor fails to complete the work within the time specified in the contract, or any extension, as specified in the clause entitled Default of this

contract, the Contractor shall pay to the Owner as liquidated damages, the sum of **\$250.00 for each calendar day of delay** that the work shall be incomplete after the date established as the date of completion under the contract. If different completion dates are specified in the contract for separate parts or stages of the work, the amount of liquidated damages shall be assessed on those parts or stages which are delayed. To the extent that the Contractor's delay or nonperformance is excused under another clause in this contract, liquidated damages shall not be due the Owner. The Contractor remains liable for damages caused other than by delay.

- 25.4 The Contractor shall not be charged with liquidated damages or any excess cost when the delay in completion of the work is due to the following, and the Contractor has promptly given written notice of such delay to the Contract Manager.

25.4.1 To any preference, priority or allocation order duly issued by the Contract Manager.

25.4.2 To unforeseeable causes beyond the control and without the fault or negligence of the Contractor, including but not restricted to, acts of God, or of the public enemy, acts of the Owner, acts of another Contractor in the performance of a contract with the Owner, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and abnormal and unforeseeable weather; or to any delays of subcontractors occasioned by any of the causes specified in paragraphs 25.4.1 and 25.4.2 of this article.

26. PROGRESS SCHEDULES AND REQUIREMENTS FOR COMPLIANCE

- 26.1 The Contractor shall, within ten days of receipt of notice to proceed, submit to the Contract Manager for approval a practicable schedule, showing the order in which the Contractor proposes to carry on the work, the dates on which he will start the major items of work (including procurement of materials, plant and equipment) and the contemplated dates for completing the same.
- 26.2 If, in the opinion of the Contract Manager, the Contractor falls behind the progress schedule, the Contractor shall take such steps as may be necessary to assure performance within the allowable time for completion. The Contractor may propose for approval by the Contract Manager measures such as increasing number of workers, number of shifts, or overtime operations, days of work, or the amount of construction plant, or all of them. The Contract Manager may require the Contractor to submit for approval such supplementary schedule or schedules necessary to demonstrate that the work shall be performed within the allowable time for completion, all without additional cost to the Owner.
- 26.3 Failure of the Contractor to comply with the requirements of this provision shall be grounds for determination that the Contractor is not prosecuting the work with such diligence as will insure completion within the specified time for completion. Upon such determination the Contract Manager may terminate the Contractor's right to proceed with the work, or any separable part thereof in accordance with Section 28 entitled "Suspension of Work, Termination and Delay".

27. LAND AND RIGHTS-OF-WAY

- 27.1 Prior to issuance of notice to proceed, the Owner shall obtain all land and rights-of-way necessary for carrying out and for the completion of the work to be performed pursuant to the contract documents, unless otherwise mutually agreed.
- 27.2 The Contract Manager shall provide to the Contractor information which delineates and describes the lands owned and rights-of-way acquired.
- 27.3 The Contractor shall provide at his own expense and without liability to the Owner any additional land and access thereto that the Contractor may desire for temporary construction facilities, or for storage of materials.

28. SUSPENSION OF WORK, TERMINATION AND DELAY

- 28.1 The Contract Manager may suspend the work or any portion thereof for a period of not more than 90 days or such further time as agreed upon by the Contractor, by written notice to the Contractor which notice shall fix the date on which work shall be resumed. The Contractor will resume that work on the date so fixed. The Contractor may be allowed an increase in the contract price or an extension of the contract time, or both, directly attributable to any suspension.

- 28.2 If the Contractor is adjudged as bankrupt or insolvent, or if he makes a general assignment for the benefit of his creditors or if a trustee or receiver is appointed for the Contractor or for any of his property, or if he files a petition to take advantage of any debtor's act, or to reorganize under the bankruptcy or applicable laws, or if he repeatedly fails to supply sufficient skilled workmen or suitable materials or equipment, or if he repeatedly fails to make prompt payments to subcontractors or for labor, materials or equipment or if he disregards laws, ordinances, rules, regulations or orders of any public body having jurisdiction of the work or if he disregards the authority of the Contract Manager, or if he otherwise violates any provision of the contract documents, then the Contract Manager may, without prejudice to any other right or remedy and after giving the Contractor and his surety a minimum of ten days from delivery of a written notice, terminate the services of the Contractor and take possession of the project and of all materials, equipment, tools, construction equipment and machinery thereon owned by the Contractor, and finish the work by whatever method he may deem expedient. In such case the Contractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the contract price exceeds the direct and indirect costs of completing the project, including compensation for additional professional services, such excess shall be paid to the Contractor. If such costs exceed such unpaid balance, the Contractor will pay the difference to the Owner. Such costs incurred by the Owner will be determined by the Contract Manager and incorporated in a change order.
- 28.3 Where the Contractor's services have been so terminated by the Contract Manager, said termination shall not affect any right of the Owner against the Contractor then existing or which may thereafter accrue. Any retention or payment of monies by the Owner due the Contractor will not release the Contractor from compliance with the contract documents.
- 28.4 After ten days from delivery of a written notice to the Contractor, the Contract Manager may without cause and without prejudice to any other right or remedy, elect to abandon the project and terminate the contract. In such case, the Contractor shall be paid for all work executed and any expense sustained plus reasonable profit.
- 28.5 If, through no act or fault of the Contractor, the work is suspended for a period of more than 90 days by the Contract Manager or under an order of court or other public authority, or the Contract Manager fails to act on any request for payment within 30 days after it is submitted, or the Owner fails to pay the Contractor substantially the sum approved by the Contract Manager or awarded by arbitrators within 30 days of its approval and presentation, then the Contractor may, after ten days from delivery of a written notice to the Contract Manager, terminate the contract and recover from the Owner payment for all work executed and all expenses sustained. In addition and in lieu of terminating the contract, if the Contract Manager has failed to act on a request for payment or if the Owner has failed to make any payment as aforesaid, the Contractor may, upon ten days written notice to the Contract Manager, stop the work until he has been paid all amounts then due, in which event and upon resumption of the work, change orders shall be issued for adjusting the contract price or extending the contract time or both to compensate for the costs and delays attributable to the stoppage of the work.
- 28.6 If the performance of all or any portion of the work is suspended, delayed, or interrupted as a result of a failure of the Contract Manager to act within the time specified in the contract documents, or if no time is specified, within a reasonable time, an adjustment in the contract price or an extension of the contract time, or both, shall be made by change order to compensate the Contractor for the costs and delays necessarily caused by the failure of the Contract Manager.

29. INSPECTION AND TESTING

- 29.1 All materials and equipment used in the construction of the project shall be subject to adequate inspection and testing in accordance with generally accepted standards, as required and defined in the contract documents.
- 29.2 The Owner shall provide any inspection and testing services beyond those required by the contract documents.
- 29.3 The Contractor shall provide at his expense the testing and inspection services required by the contract documents.

- 29.4 If the contract documents, laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any work to specifically be inspected, tested, or approved by someone other than the Contractor, the Contractor will give the Contract Manager timely notice of readiness. The Contractor will then furnish the Owner the required certificates of inspection, testing or approval.
- 29.5 Inspections, tests or approvals by the Contract Manager or others are for the sole use of the Owner and shall not relieve the Contractor from his obligations to perform the work in accordance with the requirements of the contract documents.
- 29.6 The Contract Manager and his representatives will at all times have access to the work. In addition, authorized representatives and agents of any participating federal or state agency shall be permitted to inspect all work, materials, payroll, records of personnel, invoices of materials, and other relevant data and records. The Contractor will provide proper facilities for such access and observation of the work and also for any inspection, or testing thereof.
- 29.7 If any work is covered contrary to the written instructions of the Contract Manager it must, if requested by the Contract Manager, be uncovered for his observation and replaced at the Contractor's expense.
- 29.8 If the Contract Manager considers it necessary or advisable that covered work be inspected or tested by others, the Contractor, at the Contracting Manager's request, will uncover, expose or otherwise make available for observation, inspection or testing-that portion of the work in question, furnishing all necessary labor, materials, tools and equipment. If it is found that such work is defective, the Contractor will bear all the expenses of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction. If, however, such work is not found to be defective, the Contractor will be allowed an increase in the contract price or an extension of the contract time, or both, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction and an appropriate change order shall be issued.

30. CORRECTION OF WORK

- 30.1 The Contractor shall promptly remove from the premises all work rejected by the Contract Manager for failure to comply with the contract documents, whether incorporated in the construction or not, and the Contractor shall promptly replace and re-execute the work in accordance with the contract documents and without expense to the Owner and shall bear the expense of making good all work of other Contractors destroyed or damaged by such removal or replacement.
- 30.2 All removal and replacement work shall be done at the Contractor's expense. If the Contractor does not take action to remove such rejected work within 10 days after receipt of written notice, the Owner may remove such work and store the materials at the expense of the Contractor.

31. CHANGES IN THE WORK

- 31.1 The Contract Manager may at any time, as the need arises, order changes within the scope of the work without invalidating the Agreement. If such changes increase or decrease the amount due under the contract documents, or in the time required for performance of the work, an equitable adjustment shall be authorized by change order.
- 31.2 The Contract Manager also may, at any time, by issuing a field order, make changes in the details of the work. The Contractor shall proceed with the performance of any changes in the work unless the Contractor believes that such field order entitles him to a change in contract price or time, or both, in which event he shall give the Contract Manager written notice thereof within seven days after the receipt of the ordered change. Thereafter the Contractor shall document the basis for the change in contract price or time within 30 days. The Contractor shall not execute such changes pending the receipt of an executed change order or further instruction from the Contract Manager.

32. CHANGES IN CONTRACT PRICE

- 32.1 The contract price may be changed only by a change order. All change orders are to be approved by KTHA in advance of the work. All change orders will be subject to the 2% TERO fee. The value of any work covered by a change order or of any claim for increase or decrease in the contract price shall be determined by one or more of the following methods in the order of precedence listed below:

- a) Unit prices previously approved.
- b) An agreed lump sum.
- c) The actual cost for labor, direct overhead, materials, supplies, equipment, and other services necessary to complete the work. In addition there shall be added an amount to be agreed upon but not to exceed 15% of the actual cost of the work to cover the cost of general overhead and profit.

33. DIFFERING SITE CONDITIONS

- 33.1 The Contractor shall promptly, and before such conditions are disturbed, except in the event of an emergency, notify the Contract Manager by written notice of:
 - 33.1.1 Subsurface or latent physical conditions at the site differing materially from those indicated in the contract documents; or
 - 33.1.2 Unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the contract documents.
- 33.2 The Contract Manager shall promptly investigate the conditions, and if he finds that such conditions do so materially differ and cause an increase or decrease in the cost of, or in the time required for, performance of the work, an equitable adjustment shall be made and the contract documents shall be modified by a change order. Any claim of the Contractor for adjustment hereunder shall not be allowed unless he has given the required written notice; provided that the Contract Manager may, if he determines the facts so justify, consider and adjust any such claims asserted before the date of final payment.

34. USE AND POSSESSION PRIOR TO COMPLETION

- 34.1 The Owner shall have the right to take possession of or use any completed or partially completed part of the work. Before taking possession of or using any work, the Contract Manager shall furnish the Contractor a list of items of work remaining to be performed or corrected on those portions of the work that the Owner intends to take possession of or use. However, failure of the Contract Manager to list any item of work shall not relieve the Contractor of responsibility for complying with the terms of the contract. The Owner's possession or use shall not be deemed an acceptance of any work under the contract.
- 34.2 While the Owner has such possession or use, the Contractor shall be relieved of the responsibility for the loss of or damage to the work resulting directly from the Owner's possession or use. If prior possession or use by the Owner delays the progress of the work or causes additional expense to the Contractor, an adjustment shall be made in the contract price, the time of completion or both, and the contract shall be modified in writing accordingly.

35. RECORD DRAWINGS

- 35.1 Record Drawings shall be prepared by the contractor and shall include: all information shown on the Contractors drawings and all deviations, modifications or changes from those drawings, however minor, which were incorporated in the work; all additional work not appearing on the contract drawings; and any changes made after the final inspection.
- 35.2 Record drawing shall be kept current and available on the job site at all times. No construction work shall be concealed until the necessary data has been recorded.
- 35.3 Record drawings will be jointly inspected for accuracy and completeness by the Contract Manager or his representative at, or just prior to, the contractor submitting requests for payment. Incomplete drawings will be corrected before payment approval is recommended (Reference section 40, "Payments to Contractor").
- 35.4 Record drawings shall accurately show, using details, notes, etc., the following information:
 - a) The project number, contract number, community name, and other relevant general information.
 - b) The location and description of any utility lines or other installations of any kind or description known to exist within the construction area. The location includes dimensions to permanent features.
 - c) The location and dimensions of any changes from the contract drawings.

- d) Changes in design details or additional information obtained from working drawings specified to be prepared and/or furnished by the Contractor including but not limited to fabrication, erection, installation plans, and placing details, pipe sizes, insulation materials, dimensions or equipment foundations, etc.
- e) The location and description of all buried facilities installed by the contractor including at least two ties to permanent features and bury depth of major components, fittings, appurtenances, and change of direction of pipelines.
- f) All changes or modification which results from the final inspection.
- g) All information as required in the technical specifications.

35.5 One copy of the Record Drawings shall be delivered to the Contract Manager with the Contractor's written request for final inspection. The Contract Manager will expedite drawings review and will provide written approval or disapproval prior to the final inspection. If the Record Drawings are disapproved, they will be returned to the Contractor for further work and re-submittal. Final payment will not occur until an approved set of drawings is received.

36. CLEANUP AND FINISH GRADING

36.1 The Contractor shall restore all areas disturbed by construction to a condition at least equal to that existing prior to construction. Excess construction materials, equipment, tools, waste excavation, and rubbish shall be removed. Excavated areas shall be finish graded to provide drainage as required by the drawings and technical specifications, or in the absence of specific requirements, to provide drainage away from the facilities constructed and to restore original drainage patterns in existence prior to construction and to provide drainage away from excavated areas and installed facilities.

37. MEASUREMENT AND PAYMENT

37.1 Completed items of work shall be measured and paid for in accordance with the requirements listed in the bid schedule and any subsequent approved change orders. Payment shall be based on the actual quantities completed and shall represent full compensation under the contract. The price paid for the completed item of work shall include full compensation for furnishing all labor, materials, (other than that furnished by the Owner), tools, equipment, and performing all work required by the provisions of the contract to furnish and install the item of work, complete in place. In all cases, the finished product shall be a complete, operational system or component. The price for the completed item of work shall also include all applicable state and local sales and other taxes.

38. VARIATION IN ESTIMATED QUANTITIES NOT USED

39. FINAL INSPECTION

39.1 Final inspection will be made by the Owner when the Contractor advises that all materials have been furnished, all the work has been performed, and all the construction provided for by the contract has been completed in accordance with its terms. The Contractor shall submit a written request to the Owner at least five working days before the requested final inspection date.

39.2 If a re-inspection or re-test is required because of uncompleted work, the Owner may charge the Contractor for re-inspection costs.

39.3 The Owner will provide written acceptance when all materials, work or other requirements of the drawings, specifications and contract are furnished or completed. The written acceptance will include the date the work is determined to be complete, and until such acceptance, the Contractor will be responsible for all work performed and materials delivered.

40. PAYMENTS TO CONTRACTOR

40.1 Payment requests shall be made on a monthly interval unless otherwise designated by the Contract Manager. The Contractor will submit to the Contract Manager a partial payment request filled out and signed by the

Contractor covering the work performed during the period covered by the partial payment estimate and supported by such data as the Contract Manager may reasonably require. The request for payment may also include an allowance for the cost of such major materials and equipment which are suitably stored either at or near the site. If payment is requested on the basis of materials and equipment not incorporated in the work but delivered and suitably stored at or near the site, the partial payment estimate shall also be accompanied by such supporting data, satisfactory to the Contract Manager, as will establish the Owner's title to the material and equipment and protect his interest therein, including applicable insurance. The Contract Manager will, within ten days after receipt of each partial payment estimate, either approve payment and present the partial payment estimate to the Owner, or return the partial payment estimate to the Contractor indicating in writing his reasons for refusing to approve payment. In the latter case, the Contractor may make the necessary corrections and resubmit the partial payment estimate. The Owner will, within 20 days of presentation to him of an approved partial payment estimate, pay the Contractor a progress payment on the basis of the approved partial payment estimate. The Owner shall retain 10% of the amount of each payment and 2% TERO tax until final completion and acceptance of all work covered by the contract documents. The Owner at any time, however, after 50% of the work has been completed, if he finds that satisfactory progress is being made, may reduce retainage to 5% on the current and remaining estimates. When the work is substantially complete (operational or beneficial occupancy), the retained amount may be further reduced below 5% to only that amount necessary to assure completion. On completion and acceptance of a part of the work on which the price is stated separately in the contract documents, payment may be made in full, including retained percentages less authorized deductions.

- 40.2 Upon completion and acceptance of the work, the Contract Manager shall issue a certificate attached to the final payment request that the work has been accepted by him under the conditions of the contract documents. Within 30 days of completion and acceptance of the work, the Owner shall pay the entire balance found to be due the Contractor including the retained percentages, but except such sums as may be lawfully retained by the Owner.
- 40.3 The Contractor will indemnify and save the Owner or the Owner's agents harmless from all claims growing out of the lawful demands of subcontractors, laborers, workmen, mechanics, material men, and furnishers of machinery and parts thereof, equipment, tools, and all supplies, incurred in the furtherance of the performance of the work. The Contractor shall, at the Contract Manager's request, furnish satisfactory evidence that all obligations of the nature designated above have been paid, discharged, or waived. If the Contractor fails to do so the Contract Manager may, after having notified the Contractor, either arrange payment for unpaid bills or withhold from the Contractor's unpaid compensation a sum of money deemed reasonably sufficient to pay any and all such lawful claims until satisfactory evidence is furnished that all liabilities have been fully discharged whereupon payment to the Contractor shall be resumed, in accordance with the terms of the contract documents, but in no event shall the provisions of this sentence be construed to impose any obligations upon the Owner to either the Contractor, his Surety, or any third party. In paying any unpaid bills of the Contractor, any payment so made by the Owner shall be considered as a payment made under the contract documents by the Owner to the Contractor and the Owner shall not be liable to the Contractor for any such payments made in good faith.
- 40.4 If the Owner fails to make payment 30 days after approval by the Contract Manager, in addition to other remedies available to the Contractor, there shall be added to each such payment interest at the maximum legal rate commencing on the first day after said payment is due and continuing until the payment is received by the Contractor.

41. ASSIGNMENTS

- 41.1 Neither the Contractor nor the Owner shall sell, transfer, assign or otherwise dispose of the contract or any portion thereof, or of his right, title or interest therein, or his obligations thereunder, without written consent of the other party.

42. GUARANTY

- 42.1 The Contractor shall guarantee all materials and equipment furnished and work performed for a period of one year from the date of substantial completion of the system that the completed system is free from all

defects due to faulty materials or workmanship and the Contractor shall promptly make such corrections as may be necessary by reason of such defects including the repairs of any damage to other parts of the systems resulting from such defects. The Contract Manager will give notice of observed defects with reasonable promptness. In the event that the Contractor should fail to make such repairs, adjustments, or other work that may be made necessary by such defects, the Owner may do so and charge the Contractor the cost thereby incurred. The performance bond, if required, shall remain in full force and effect through the guarantee period.

43. ACCEPTANCE OF FINAL PAYMENT AS RELEASE

43.1 THE ACCEPTANCE BY THE CONTRACTOR OF FINAL PAYMENT SHALL BE AND SHALL OPERATE AS A RELEASE TO THE OWNER OF ALL CLAIMS AND ALL LIABILITY TO THE CONTRACTOR OTHER THAN CLAIMS IN STATED AMOUNTS AS MAY BE SPECIFICALLY ACCEPTED BY THE CONTRACTOR FOR ALL THINGS DONE OR FURNISHED IN CONNECTION WITH THIS WORK AND FOR EVERY ACT AND NEGLIGENCE OF THE OWNER AND OTHERS RELATING TO OR ARISING OUT OF THIS WORK. ANY PAYMENT, HOWEVER, FINAL OR OTHERWISE, SHALL NOT RELEASE THE CONTRACTOR OR HIS SURETIES FROM ANY OBLIGATIONS UNDER THE CONTRACT DOCUMENTS OR THE PERFORMANCE BOND AND PAYMENT BONDS.

44. CONTRACT MANAGER'S ROLE AND AUTHORITY

- 44.1 The Contract Manager or his designee shall act as the Owner's representative during the construction period. He shall decide questions which may arise as to quality and acceptability of materials furnished and work performed. He shall interpret the intent of the contract documents in a fair and unbiased manner. The Contract Manager will make visits to the site and determine if the work is proceeding in accordance with the contract documents.
- 44.2 The Contractor will be held strictly to the intent of the contract documents in regard to the quality of materials, workmanship and execution of the work. Inspections may be made at the factory or fabrication plant of the source of material supply.
- 44.3 The Contract Manager will not be responsible for the construction means, controls, techniques, sequences, procedures, or construction safety.
- 44.4 The Contract Manager does not have authority to obligate the Owner to change in the terms of the contract without the approval of the Owner.

45. RESOLUTION OF DISPUTES

- 45.1 All claims, disputes and other matters in question arising out of, or relating to, the contract documents or the breach thereof, except for claims which have been waived by the making and acceptance of final payment as provided by Section 43, shall be decided by arbitration in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association. This agreement to arbitrate shall be specifically enforceable under the prevailing arbitration law. The award rendered by the arbitrators shall be final, and judgment may be entered upon it in any court having jurisdiction thereof.
- 45.2 Notice of the demand for arbitration shall be filed in writing with the other party to the contract documents and with the American Arbitration Association. Demand for arbitration shall in no event be made on any claim, dispute or other matter in question which would be barred by the applicable statute of limitations.
- 45.3 The Contractor will carry on the work and maintain the progress schedule during any arbitration proceedings, unless otherwise mutually agreed in writing.

45. RESOLUTION OF DISPUTES

- 45.1 "Claim" as used in this clause, means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of Contract terms, or other relief arising under or relating to the Contract. A claim arising under the Contract, unlike a claim relating to the Contract, is a claim that can be resolved under a

Contract clause that provides for the relief sought by the claimant. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim. The submission may be converted to a claim by complying with the requirements of this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

- 45.2 Except for disputes arising under the clauses entitled Labor Standards and Labor Standards - Nonroutine Maintenance herein, all disputes arising under or relating to this Contract, including any claims for damages for the alleged breach thereof which are not disposed of by agreement, shall be resolved exclusively under this clause.
- 45.3 The details and supporting documents of all claims by the Contractor for additional compensation, or for an extension of time of performance, or for any dispute regarding a question of fact, or for interpretation of the Contract, shall be made in writing and submitted to the Contract Manager for a written decision within ten (10) calendar days from the date of the occurrence of the dispute. The Contractor agrees that unless these written notices are provided, the Contractor will have no entitlement to additional time or compensation for such act, event or condition and such failure to provide such notice shall constitute a waiver of the claims. All claims by Owner against the Contractor shall be made in writing and submitted to the Contractor within ten (10) calendar days from the date of the occurrence of the dispute.
- 45.4 Presenting Claim. In presenting the claim and supporting documentation, the Contractor shall specifically include, to the extent then possible, the following:
- a) Certification signed by the Contractor that the claim is made in good faith, that the supporting data is accurate and complete to the best of the Contractor's knowledge and belief, and that the amount requested accurately reflects the Contract adjustment for which the Contractor believes Owner is liable.
 - b) A narrative which describes the facts and outlines the analysis of responsibility and causal connection of the claim including: (i) A brief summary of the claim and the facts pertinent to the claim; (ii) The specific Contract provisions on which the claim is based; (iii) A description of the relative responsibilities of each party giving rise to the claims; (iv) A description of the cause and effect relationship between the relevant acts and omissions of the specific responsible parties and the damages or additional costs claimed; (v) Documentation which supports the narrative including schedules, graphs, charts, photographs, and any other pertinent documents or information; (vi) Quantitative analysis and presentation of requested additional compensation and/or the additional time including: (A) A summary of additional compensation and/or additional time requested; (B) Supporting calculations, subcalculations, cost data and documents including proof of expenditures to support the claimed additional compensation and/or additional time.
- 45.5 All claims by the Contractor shall be made in writing and submitted to the Contract Manager for a written decision. A claim by Owner against the Contractor shall be subject to a written decision by the Contract Manager.
- 45.6 The Contract Manager shall, within _____ (60 unless otherwise indicated) days after receipt of the request, decide the claim or notify the Contractor of the date by which the decision will be made.
- 45.7 The Contract Manager's decision shall be final unless the Contractor appeals in writing to a higher level in the Owner in accordance with the Owner's applicable policy and procedures for such appeals, if any. In the event that the Owner does not have a policy and procedures for such an appeal, an appeal may be made to the governing body of the Owner. Such appeal must be made within _____ (10 unless otherwise indicated) days after receipt of the Contract Manager's decision.
- 45.8 The Contractor shall proceed diligently with performance of this Contract, pending final resolution of any request for relief, claim, appeal, or action arising under or relating to the Contract, and comply with any decision of the Contract Manager.
- 45.9 Nothing in this Contract, or any action taken by the Owner or any of its agents or employees in connection with this Contract shall be deemed to be a waiver of the sovereign immunity of the Owner or the Tribe.
- 45.10 Contractor hereby acknowledges and irrevocably consents to the exclusive personal and subject matter jurisdiction of the Tribal Court or other Tribal dispute resolution entity or mechanism of the Tribe over

any dispute, suit or other legal action that may be filed relating to the Contract, provided that this provision shall not be deemed to be a waiver of the sovereign immunity of the Tribe or Owner, which immunity is hereby expressly asserted, and provided further that any order, judgment or award of such Court or dispute resolution entity or mechanism in favor of the Owner and against the Contractor may be registered or enforced in any court of competent jurisdiction.

46. EQUAL EMPLOYMENT OPPORTUNITY

- 46.7 The Contractor shall furnish to the Contract Manager, all information required by Executive Order No. 11246, as amended, and by the rules, regulations, and orders of the Secretary of Labor. Standard Form 100 (EEO - 1), or any successor form, is the prescribed form to be filed within 30 days following the award, unless filed within 12 months preceding the date of award.
- 46.8 The Contractor shall permit access to its books, records, and accounts by the Owner, Owner's representatives or the Office of Federal Contract Programs (OFCCP) for the purposes of investigation to ascertain compliance with the applicable rules, regulations, and orders.

- 46.10 The Contractor shall include the terms and conditions of this section in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued under Executive Order No. 11246, as amended, so that such provisions will be binding upon each subcontractor or vendor.
- 46.11 The Contractor shall take such action with respect to any subcontract or purchase order as the Contract Manager may direct as a means of enforcing these terms and conditions, including sanctions for noncompliance; provided, that if the Contractor becomes involved in, or is threatened with litigation with a subcontractor or vendor as a result of such direction by the Contract Manager, the Contractor may request the Owner and the United States to enter into such litigation to protect the interests of the United States.

- (a) Employers. This applies to all employers doing business with the Tribe or one of its affiliated tribal entities. The Tribal Council at its discretion may exempt an employer from this requirement.
- (b) Non-Tribal Businesses on Tribal Lands. All non-tribal businesses with a place of business on tribal lands and annual net income shall pay an annual fee of two percent (2%) of annual net income to the TERO Office.

Section 2.6: Fee Collection and Expenditure

The TERO fee shall be collected by the Tribe's Fiscal Department and credited to the TERO Account.

Section 2.7 Certification of Businesses

(a) Business Categories

An applicant may seek to be certified for preference in one of the following two categories:

- (1) *Tribal Business.* A Tribal Entity must own, operate, manage and control 100% of the day-to-day operations of the business.
- (2) *Tribal Member Business.* Enrolled Karuk Tribal Members must own, operate, manage and control at least 51% of the day-to-day management and operations of the business.

(b) Requirements for Certification

The TERO Office will evaluate the application for certification based on factors, including, but not limited to, the following:

(1) *Ownership*

The firm must be 51% or more enrolled Karuk Tribal Member-owned. The applicant must demonstrate the following:

- (a) Formal Ownership. That the enrolled Karuk Tribal Member own(s) 51% or more of the partnership, corporation, or other arrangement for which the application is being submitted. Such ownership must be embodied in the firm's Originating documents, such as its stock ownership or partnership agreement. Ownership includes:
- (b) Assets. The enrolled Karuk Tribal Member owns 51% or more of the assets and equipment, will receive 51% or more of the firm's assets upon dissolution, and will receive 51% or more of the profits, and interest.
- (c) Control. The enrolled Karuk Tribal Member's 51% or more ownership provides him or her with a majority of voting rights or other decisional authority and that all decisions of the firm are to be made by a majority vote except where otherwise required by law.
- (d) Value. The enrolled Karuk Tribal Member provided real value for his or her 51% or more ownership by providing capital, equipment, real property, or similar assets commensurate with the value of his or her ownership share. It will not be considered "real value" if the enrolled Karuk Tribal Member purchased his or her ownership share, directly or indirectly, through a promissory note, the ultimate creditor of which is the non-Karuk Tribal Member owner of the firm or an immediate relation thereof, or any similar arrangement, unless a convincing showing can be made that the enrolled Karuk Tribal Member brought such special skills, marketing connections, or similar benefits to the firm that there is a good reason to believe the arrangement would have been entered into even if there was no Tribal preference program in existence. Where the enrolled Karuk Tribal Member participant can demonstrate that he or she could not pay good value for his or her 51% or more Indian ownership because the normal capital sources were closed to him or her because he or she is an Indian, that person may satisfy this requirement by demonstrating further that he or she extended his or her capital-raising capability as far as possible, such that the enrolled Karuk Tribal Member participant clearly is at risk in the business in relationship to his or her means.

- (e) Profit. The enrolled Karuk Tribal Member owner(s) will receive 51% or more of all profits. If there is any provision that gives the non-Karuk owner a greater share of the profits, in whatever form and under whatever name, such as through management fees, equipment rental fees, or bonuses tied to profits, certification will be denied. Salary scales will be reviewed to ensure the relative salaries being paid Indian and non-Indian owners are consistent with the skills of the parties and are not being used to circumvent the requirement that enrolled Karuk Tribal Member owners receive 51% or more of the profits.

(2) *Management and Control*

The firm must be under significant Indian management and control. The firm must be able to demonstrate that: one or more of the Indian owners must be substantially involved, as a senior level official, in the day-to-day management of the firm as his or her primary employment activity.

The Indian owner does not have to be the "Chief Executive Officer."

However, he or she must, through prior experience or training, have substantial occupational ties to the area of business in which the firm is engaged such that he or she is qualified to serve in the senior level position and is sufficiently knowledgeable about the firm's activities to be accountable to the Tribe for the firm's activities.

This provision may be waived when:

- (a) The firm is 100% Indian owned and the Chief Executive Officer is the spouse and/or parent of the owner(s), the family lives on or near the Tribe's service area, and the majority of employees are Indian; or
- (b) The firm is modeled on a publicly-held corporation such that it is owned by 10 or more persons, is at least 70% Indian-owned, the Chief Executive Officer and the highest-salaried employee in the firm is/are Indian, and a majority of the employees are Indian.

(3) *Integrity of Structure*

There must be good reason to believe that the firm was not established solely or primarily to take advantage of the Indian preference program. In evaluating an applicant under this criterion the TERO will consider the factors set out below. The TERO shall exercise broad discretion in applying these criteria in order to preserve the integrity of the Indian preference program and in questionable cases shall deny certification.

- (a) History of the Firm: Whether the history of the firm provides reason to believe it was established primarily to take advantage of the Tribal preference program, and in particular whether the firm, a portion of the firm, or key actors in the firm originally were associated with a non-Indian owned business that gained little of business value in terms of capital, expertise, equipment, etc., by adding ownership or by merging with an Indian firm.
- (b) Employees: Whether key non-Indian employees of the applicant are former employees of a non-Indian firm with which the Indian firm is or has been affiliated, through a joint venture or other arrangement, such that there is reason to believe the non-Indian firm is controlling the applicant. Whether Indians are employed in all or most of the positions for which qualified Indians are available. A high percentage of non-Indian employees in such positions will provide reason to believe the firm was established primarily to benefit non-Indians.

- (c) Relative Experience and Resources: Whether the experience, expertise, resources, etc., of the non-Indian partner(s) is so much greater than that of the Indian(s) that there is little sound business reason for the non-Indian to accept a junior role in the firm other than to be able to take advantage of the Indian preference program.

(4) *Brokers*

Brokers will be certified only if they are dealers who own, operate, or maintain a store, warehouse, or other establishment in which the commodities being supplied are bought, kept in stock, and sold to the public in the usual course of business; provided, that this requirement shall not apply where the applicant demonstrates that it is customary and usual in the area of trade for a broker/dealer not to maintain an establishment and to keep the commodities in stock.

(5) *Manufacturing Companies*

In determining whether or not a manufacturing firm is 51% Indian- owned and controlled, the Commission shall be guided by the Small Business Administration Standard Operating Procedures on certifying firms as eligible for the 8(a) program.

Section 2.8 Application Procedures

- (a) Application for Certification: A business seeking certification as a Certified Business or registration for a particular category of business shall submit a completed application to the TERO Office on a form provided by the TERO Office.
- (b) Issuance of Certification: The TERO Director shall exercise broad discretion in reviewing the application and supporting documents in order to preserve the integrity of the Tribal preference program. If the TERO Director has any question as to the applicant's fulfillment of one of the requirements, the TERO Director may deny the application and refuse to submit the application to the TERO Commission for final approval.
- (c) Appeal of Denial of Application: The applicant may request a hearing before the TERO Commission to appeal a denial of an application. The principal(s) of the business shall be present at the hearing and shall have the opportunity to present evidence in support of their case. The decision of the TERO Commission shall be final and binding and not subject to any further appeal.
- (d) Businesses Certified Prior to the Adoption of these Criteria:
- (1) Each business granted Tribal preference certification by the Tribe prior to the effective date of this Act shall submit a new application to the TERO Office within ninety (90) days to be recertified. If the TERO Director denies recertification, the business may appeal the decision to the TERO Commission.
 - (2) Change in Status and Annual Updates: Each Certified Business shall be in compliance with all certification requirements at all times during the solicitation, evaluation, and awarding of contracts and shall report in writing to the TERO Office any changes in its responses to the certification application and/or supporting documents within sixty (60) days after such changes have occurred. Each Certified Business shall update the information provided in its initial application paperwork on an annual basis.

Section 2.9 Withdrawal of Certification

- (a) Initiation of Proceedings: The TERO Director may initiate proceedings to withdraw or suspend the certification of any businesses as warranted. The TERO Director shall provide written notice to the business that its Certification is being re-evaluated. The business shall have ten (10) days in which to respond and provide additional documentation.
- (b) Finding: The TERO Director shall prepare a Recommendation to the TERO Commission regarding whether the business continues to meet the eligibility requirements for certification and make a determination of withdrawal or suspension of certification based on the available information. The Recommendation shall be submitted to the TERO Commission for a final determination. The TERO Commission shall provide the business a written notice of its decision.
- (c) Request for Reconsideration: Upon receiving the Notice of Decision from the TERO Commission, a business shall have ten (10) days in which to make a request that the Commission reconsider its decision. To be considered, any Request for Reconsideration must be accompanied by additional evidence not already before the Commission.

- (c) Job Qualifications and Business Necessity. No employer shall use any threshold, job qualification criteria, or other personnel requirements that serve as barriers to Tribal Preference in employment, as determined by TERO, unless the Employer can demonstrate that such criteria or requirements are required by business necessity.
