

Ayukii,

My name is Daniel Effman, son of Wesley and Judy (Kirby) Effman. My family has a long history originating in Clear Creek and later homesteading in Happy Camp. As a tribal member and local business owner I firmly believe we can work together to improve services for our elders, youth, and all other members and descendants no matter their place of residence. There are issues that arise and decisions to be made that should not be decided by Council but should be taken to a vote of the members for their input. The tribe needs to diversify economically and not depend solely on grant funding and the casino to provide for the dollars needed to support our elders as they should be. A vote for me is a vote for the people!
